

# HOYT Veno Screens

## Superior Design.

As the original screen design created in Germany 75 years ago, the Hoyt Veno Screen remains an ideal screening solution in conditions where blinding and plugging are common. The unique combination of straight and crimped wires provides excellent accurate material sizing while remaining clean and efficient.

- Known to last up to three times longer than other standard screens.
- Completely eliminates blinding and plugging.
- Ideal for use hot mix batch asphalt plants.
- Perfect performance when accurate sizing is a must.
- Screen can be coated with abrasion-resistant polyurethane for extended wear-life.
- Superior design results in production increase and cost savings.
